

ANNOUNCEMENT

We Have Changed the Name of Our Corporation!

**Alpharetta Women's Healthcare
is now
Georgia Hormones P.C.**

Hormone imbalance is not just a woman's problem.

Holistic principles of health apply to men, just as they do for women.

We needed a name that fit our mission of Holistically addressing the health and hormone issues of both men and women.

Our web site, www.GeorgiaHormones.com already fit that mission.

As of May 8, 2008

Alpharetta Women's Healthcare
is officially

Georgia Hormones, P.C.
